Armed with it, the Indian bids defiance to the most deadly malaria and and permanent cure, or make no handles without fear the most venomous serpents. Itis Dr. Wm. MANHOOD

How Destroyed, How Restored. Dr. N. S. PENDERY.

Physician and Surgeon,

No. 24 1-2 E. Washington St.

IN CONNECTION WITH THE GENERAL PRACTICE of Medicine, I treat by a new and reliable medium, and with the happiest results, all forms of diseases of the Nervous, Seminal and Urmary and Sexual systems. Young men with holls w cheeks and pallid countenance, telling in fearful language the silent working of some formidab e disease undermining your constitution, memory and reason, burrying you to a premature death, reflect while reason holds sway and avail yourself of a treatment that dissipates the slightest disease, and cures the harrassing weakness and other causes of serioue difficulty and perpetual annoyance Spermatorrhoza, Seminal Weakness, Noeturnal Emis sions, Sexual Debility. mpotency, Effects of Self-Abuse. and their results-Inability to Consummate the Marriage Contract, Mental and Physical Prostration, Epilepsy, Insanity and Consumption.

"The foe, Like a staunch murderer, steady to his purpose, Presses him close through every lane of life, Nor misses once the track, but presses on, Till forced at last to the tremendous verge, And at once he sinks."

Likew se, I will guarantee a radical cure of Syphilis, Gonorrhoea and Gleet, in all their stages entirely re-moving from the blood the last spark of these terrible diseases that so gradually burn up the fountain of life.

Diseases and Conditions Peculiar to Females.

The beauty and extreme delicacy of the female organzation, to say nothing of its physiological characteristics, are sufficient indications that it is sub ect to forms of disease and modifications peculiar to itself. The physician of the present day does not encounter any more forms of uterine diseases than did the physician of fifty years ago; but owing to the present social condition of woman, her diseases are increased to frequency, and to the truth of this assertion the melancholy deaths by GOUT, RHEUMATISM AND NEURALGIA,

At the American Dispensary we treat by a new method, and with the happiest results, Prolap-sus Uteri, (falling of the womb,) Eruptions of the Skin, Chlorosis, or Green Sickness-characterized by yellowish, dirty green pallor of the surface; Emansio dessium, or absent Menstruction; Amenorrhea, or Retention of the Menses; Dysmenorrhea, a painful and difficult flow of the Menses; Menorrhagia, or profuse Menstruction; Leuchorrhea, or excessive and altered secretion of the mucus-generally white, or nearly coloress

If you are afflicted with organic weakness, or any assemblage of morbid phenomena of this character, you have no time to spare, but at once apply for med cal

aid. If too late to arrest the disease, it is at least possi-

ble to palliate the symptoms, and thus smoothe the pathway to an untimely grave. In a majority of instances these diseases have made considerable progress before the patient becomes alarmed. In some cases an emaciation is the first indication that attracts the attention of the patient's friends. And here, reader, let me call your earnest attention to the fearful significance of the word "wasting." It not only constitutes the leading feature, but the earliest and mest ominous symptor s of Consumption, examples of which are invariably met with in young ladies who are gifted with high intellectual endowments, refined ac-
